Location: Birmingham

Personal Profile:

I am a first year game programming student at BCU seeking experience in a customer service environment which I am very passionate about doing to a high level. I am excited to gain experience within retail and learn quickly to be a friendly and efficient employee. I would describe myself as reliable, enthusiastic, approachable and eager to learn and improve. Through my education I have developed core teamwork, organization and problem solving skills, I also enjoy helping others and working within a team.

Education:

- Birmingham City University - BSc (Hons) Game Programming - September 2025-Present
- Halesowen College - Computer Engineering C VR Game Development - September 2023-June 2025
- Bartley Green School - GCSEs - September 2018-June 2023

Key Skills:

- Strong communication skills
- Friendly and approachable manner
- Teamwork
- Organization and time management
- Problem solving
- Quick to learn and adjust to systems
- Knowledgeable about gaming, computers, and general technology
- Customer focused and friendly approach
- Reliable and Punctual

Interests:

- Gaming as a player and developer
- Computers and technology
- Modern trends and culture
- Alternative media and culture
